

Advancing knowledge of adolescent health

Project Title	Advancing knowledge of adolescent health
Project Summary	Help the HHS Office of Adolescent Health expand the information and resources it shares on an adolescent health disparities
Country	United States
Agency	Health and Human Services Department
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	2

Project Description

To better promote adolescent health, OAH aims to more closely examine adolescent health disparities in areas such as substance use, healthy relationships, physical health, and others, as well as available resources or models for addressing these issues for different communities (e.g. Native American youth, college-age youth, LGBTQ youth, youth in foster care, etc.). The specific focus will be based on the intern's interests and skills, and the facts, resources, and models collected will be used to expand what is on OAH's adolescent development webpages and social media as well as successful strategies highlighted under the Adolescent Health: Think, Act, Grow® (TAG) call to action.
